- Littles should have an over-ear mic, and give up their pack to their partner. (Cielo has two packs)
- Gia and Miles have their own mics, but share a pack
- Bella and Alex L might have their own mics and just share packs with Sree and Allie, or might have to share both.

Little Mermaid Mic Check Breakdown

- **First Priority: Littles**

- All 8 littles should put on mics (no tape yet) and packs first thing.
- Isabella L has 2 packs. She should do 7 first and then 16 immediately after.
- All Littles have lines, but 4 Ursalites should only test their spoken lines, not their scream. (Mute them when they scream).
- Littles will most likely be quieter than their pack partners, so set the gain for them with the slider at 0.
- While the oldsters are used to projecting without the music, you might need to play the rehearsal track for the Littles, to make sure their singing is hearable over it. (*Les Poissons Reprise* and *Good Times Back*)

- **Second Priority: Gulls/Maids**

- Elsa, Lexi, Maggie, Megan, Leah, and Alexa G all use a mic that is also used by a Little and a Mersister/Sailor.
- Once the littles are done, These girls will test the pack and the group mic, loosely taped on the cheek (Don't bother with ear, neck, etc). **Their makeup/hair does not need to be done! They are taking it right back off!**
- Without moving the gain, put the piece of Green spike with their name down with the **top** at the slider level of the Gull/Maid.

- **Third Priority: Bella/Alex L**

- In a perfect world, I will have mics for these two, so just the packs are switching.

Little Mermaid Mic Check Breakdown

- In reality, they might be in the same position as the Gulls/Maids, and so will need to do a pre-makeup, lightly taped, check early.
- If it is a perfect world, then they will be the same as Gia
- **Fourth Priority: Gia**
 - You have to wait until her hair/makeup is done, but she's got to check her mic early, since she shares it with Miles. And he starts with it.
- **Fifth Priority: Everyone Else**
 - As soon as they've got makeup and hair done, get them mic'd and get them checked.
 - If they are the second (or third) person to use a mic, don't change the gain! Put the piece of Tan spike with their name down with the **top** at the slider level for them.
- **Sixth Priority: Littles Redux**
 - Once they have makeup on, Littles should get their mics put back on and have the cables taped down.
